Report given by: Dr.S.Vijayananth

The ED cell organized a one day workshop on “Nurturing And Growing Innovative Start-Up” on 03.02.2016 at 11.00 a.m. in Seminar Hall, exclusively for the students of ACT.

The Head of EEE department and Research Dean, Dr. Srinivasan Alavandar gave the welcome address and introduced the chief guest and Resource person, Mr.M.Subburajan, Manager - Finance & Contracts, Centre for Entrepreneurship Development. Principal, Dr. S.R.R. Senthil Kumar given felicitation address and he highlighted the Start-ups, briefed about the government of India taken the initiatives towards the start-up.

Resource person briefed about the start-up movement has traversed a long distance since then. From being restricted to the digital/technology sector to growing into a wider range of sectors covering agriculture, manufacturing, education and healthcare; from being confined to Tier 1 cities to reaching Tier 2 and Tier 3 cities – Indian start-up are spreading their wings far and wide. The initiative has managed to instil confidence in the youth, that their idea is more than just an idea and that there are ready opportunities to help nurture it further. India is maturing as a start-up hub with 8% growth registered in the number of funded start-ups in 2016.

Finally, Dr. Srinivasan Alavandar, Research Dean and HOD/EEE thanked the resource person for the valuable and informative speech.

Report given by: Dr.R. Ganesh Shankar

The Centre for Research and Development and Institution of Engineers, India- Agni College of Technology organized a one day workshop “How to write a plagiarism free research paper” on 15.07.2016 at 9.30 a.m. in Smart class room.

The Head of CIVIL department, Dr.R. Ganesh Shankar gave the welcome address and introduced the chief guest and Resource person, Dr. N. Lakshmi Narasimhan B.E., M.S (By Research), Ph.D., SSNCE.

Principal, Dr. S.R.R. Senthil Kumar given felicitation address briefed the importance of research in the present scenario and motivated all the faculty members to dedicatedly focus on research.

Resource person, Dr. N. Lakshmi Narasimhan B.E., M.S (By Research), Ph.D., SSNCE, explained about the Research paper and emphasized the importance of plagiarism in terms of its benefits and career growth. He insisted that the idea should be novel, non-obvious and application oriented to be applied for Research paper. He briefed on the topics ‘Research Familiarization and its Necessity’, and ‘Technical Paper Organization Know How’. He was generous and expressive with his ideas, and made sure that the session was interactive with his knowledge and life experiences, conveyed the importance of research in personal and professional development. Participants were also introduced to the format of writing and publishing a research paper.

Finally, Dr. Srinivasan Alavandar, Research Dean and HOD/EEE thanked the resource person.

One Day Workshop on Career Guidance

April 30, 2017

A ONE DAY WORKSHOP CUM CAMPUS VISIT ON CAREER GUIDANCE AND STUDIES ABROAD 17

A one day WORKSHOP cum CAMPUS VISIT on CAREER GUIDANCE AND STUDIES ABROAD'17 was organized in collaboration with RGR, RKV Academy on 30.4.2017 in our college premises with an objective to orient the young would-be technocrats on their choice of career prospects in line with the industrial demands .The deliberations commenced with the lightening of the traditional lamp by the dignitaries Mr Agnishwar Jayaprakash , Founder of Agni foundations presided over the function. Dr.S.R.R.Senthil kumar, Principal welcomed the gathering . Mr.R.Govinda rajan, Founder of RGR Academy offered felicitations. Acclaimed professors Prof.P.snthosh, Prof.Jajaprakash, Prof.Udayakumar interacted with the students and gave insightful tips on how to crack JEEE Exams with ease. Mr.Jayadev Sharma,Founder of Inner connections stole the attention of the students with his thought - provoking talk on WHO WE ARE meanwhile Ms.Rajakumari and Mr. Prabhu,Founder Director of RKV International Studies spoke about the foundation and its missions in the realm of education overseas.Dr.Syed Abdur Kadar ,MD ,General Physician Royepett Gvt Hospital oriented on how to clear the Foreign Medical Entrance Exams thereafter ,the visiting students along with their parents were taken for a campus trip after a sumptuous lunch. As many as 1100 students and parents took part and benefited from the programme.

Seminar on "Role of Student as Researcher"

Event organized by : CRD

Date of the event :23.12.2017

Resource Person Details:

Event Venue: Smart Room

Dr. G.L Samuel, Professor, IIT Madras.

Time: 9.30 am

Number of participants: 45

Report given by : Dr. M.Sridevi

Agni College of Technology and CRD conducted it One day Seminar "Role of student as researcher" for students of PG and UG students on 23.12.2017 at 9.30 am in Smart room.

Dr. M.Sridevi Head Department of Electrical and Electronics Engineering gave the welcomed the gathering and Chief Guest Dr. G.L Samuel, Professor, IIT Madras.

The Principal, Dr. S.R.R. Senthil Kumar addressed the gathering and gave the in right of research for the environmental growth as Engineering through research.

Followed by the chief Guest "Dr. G.L Samuel " Who gave the important Research among students Student's community. Research must always be of high quality in the order to produce the knowledge that is applicable outside the research setting. Furthermore the result has implication for policy and future implementation. Throughout the seminar, examples of how research and education might be integrated were highlighted. Seven case studies and several hypothetical scenarios were discussed, including scenarios of how researchers might develop education projects directed toward target audiences, such as postdoctoral researchers, graduate and undergraduate students

Finally, Dr. Srinivasan Alavandar, Dean thanked the resource person, and gave a keynote to students.

Summit on “Leveraging the Opportunities Ahead”

Agni College of Technology, Thalambur, Chennai, organized the HR Summit 2018 at the College premises on Saturday, 24th March 2018. The summit focused on ‘Leveraging the opportunities ahead’.

The phenomenal summit started with a patriotic invocation followed by welcome address by **Dr. R.S. Kumar, Principal, ACT**. He began his address with a quote by Mahatma Gandhi, “**Be the Change You want to be**”. Later, he welcomed the stars of the summit and mentioned that it was a rare moment to find all the HR Stars under one roof. He asked the students to make use of the opportunity and pursue their aspirations. Later, he highlighted the achievements of the institution in academic and training given to the students on Aptitude, Technical and Communication Skills. The Human Resources Managers were felicitated with a memento and bouquet. **Mr. R.N. Jayaprakash, Managing Trustee**, inspired the gathering with his Special Address. Addressing the HRs and the students, he stressed on the importance of bridging the gap between the institution and the industry. He added that for all the educational institutions, the need of the hour is to train their students with the skills sets needed to prepare them for future. He requested the HRs to make the summit as a Corporate Social Responsibility. He insisted the students to make use of the opportunities with utmost sense of commitment.

WORKSHOP ON "INDUSTRY READY ENGINEERING (IRE)- HANDS ON TRAINING"

Agni College of Technology
OMR Chennai

DEPARTMENT OF BIO MEDICAL ENGG

3 Days Workshop on Basics of Electronics
Topic : Industry Ready Engineering (IRE)

Resource Person :
Mr. S. Sundaramoorthy,
CEO, Sunshiv Electronic Solutions, Coimbatore

Date : 29.11.2017, 30.11.2017 and 01.12.2017

Venue : Seminar Hall

The Department of Biomedical Engineering organized a 3 day workshop on "Industry Ready Engineering IRE- Hands on Training" from 29th November to 1st December. The sessions were handled by **Mr. S. Sundaramoorthy, CEO, Sunshiv Electronic Solutions, Coimbatore**. The sessions focused on the following topics under INDUSTRY READY ENGINEERING (IRE) - HANDS ON TRAINING:

- Creating drawings & schematic diagrams
- Live demonstration of Electronic components
- PCB Designing
- Trouble shooting
- Circuit creation - fundamentals
- Reverse Engineering Technology – Creating circuits from existing product
- PIC& PLC programming introduction - I/O ports
- Individual Three industrial Products – with PCB & Components -DIY (Do It Yourself)
- Individual Lab Equipments
- Digital Multimeter, Soldering iron with tip, Solder stand, Cutter, Solder lead & Solder flux

The students were encouraged to design their circuits and test their innovative design. The key motive behind the hands on training is the Make in India initiative by

the Government of India to motivate young engineers to produce indigenous equipments with low cost and to develop innovative ideas into working modules.

DAY 1

The first day commenced with the inauguration function. The workshop had many active participants from other colleges like Alpha College of Engineering, Vel Tech Engineering College, Sai Ram Engineering College, along with the students of Agni College of Technology. The participants were welcomed by Dr. M. Kayalvizhi, HoD, Biomedical Engineering. The session started with the guest speaker's talk on "How to be an Engineer" focused more on research and innovative projects. He stressed on nurturing the theoretical lessons into practical oriented units. An industrialist himself, he focused on how to make the students Industry Ready by sharing his own experiences as an Interviewer. Throughout the day, he shared essential tips on how to ace an interview, interview questions frequently asked and how to tackle questions with ease.

After the introductory talk, he moved on to the Basics in Electronics and impressed the crowd with his innovative methods to learn simple basic theories. Colour coding of resistors, CAD software formulated the morning session of the day. All the participants were given an electronic components kit consisting of multimeter, LED, Diode, etc. The afternoon session dealt with Troubleshooting session wherein calibration of multimeter, testing of diodes, etc., was demonstrated.

DAY 2

The second day comprised of IC technology and basic theory behind microcontrollers, PIC, Microprocessors and introduction to PLC. Pin diagrams and keys to remember the pins were discussed. PIC16F887 microcontroller, which is an ideal for more advanced level A/D applications in automotive, industrial, appliances or consumer applications, was discussed in detail. There were many interesting theories that the guest speaker transformed into easy practical units. The students were in awe of his approach in helping them absorb such tough concepts in such an

uncomplicated method. The session also included writing programs and basic commands and how to coordinate in program execution.

The afternoon session, was hands on training, and all students assembled three circuits designing, soldering (is a process in which two or more items (usually metal) are joined together by melting and putting a filler metal (solder) into the joint, the filler metal having a lower melting point than the adjoining metal) and testing was a big encouragement and a boost to students to design circuits on their own.

Government Exam Awareness Program

The event started with a few videos about the Kingmaker's IAS Academy and their recent achievements. There was also a news report about Mrs.N.L.Beno Zephine who became India's first 100% visually challenged Indian Foreign Services (IFS) officer.

The chief guest Prof. Sathyasree Bhoominathan, ISS and other dignitaries entered the auditorium with a huge cheer from the crowd. The principal delivered the Welcome address and provided some glimpses about his personal relationship with the chief guest. He also emphasized on the need for all engineering graduates to overcome their fears about the various government exams like GATE, UPSC, and TNPSC etc. Finally the principal concluded his speech by thanking the chief guest for reaching out to the students at such short notice and hoped the students would put forward their questions.

The Chief Guest Mr Sathyasree Boominathan, Founder of King makers IAS academy started his speech by clearly specifying about the salient features of the programme. He also presented a short overview about his past. The students were astonished to know about his modest past and how he overcome his difficulties to achieve this astonishing fleets. He then presented about the overview of civil services examination. He explained about the scheme of examination which consists of preliminary examination which is followed by main examination and personality test. He explained that students who are in their final year of engineering course and have completed 21 years of age by August 1 are eligible to write the exams. He also said that the maximum age up to which one can attempt the exam is 32 which is further relaxed for backward castes.

One of the most astonishing things that he said was that the exam fees was a mere hundred (100) rupees and it was absolutely free for female candidates and SC ST candidates. He briefed that the preliminary test consisted of 400 marks with General studies (GS) and Aptitude (CSAT) carrying 200 marks each. He also explained about the mains exam which carries 1750 marks and also did not fail to mention that a mere 50% cut-off was enough to be selected for personality test. Finally he said that the

personality test consisted of 275 marks which takes the total Mark to $1750 + 275 = 2025$ marks.

He then explained about engineering services examination (ESE) which would be taken up by the engineering graduates and also mentioned that it is equal to an IAS or IPS officer. The Engineering Services Exam (ESE) consists of 1275 marks with split up being 400 marks for objective papers, 600 marks for theory papers and 275 marks for personality test. He also briefed about other services like Indian revenue services (IRS), Combined Defence Services (CDS), and Indian Foreign Services (IFS) etc.

Finally on the demand of the students the chief guest also provided a quick glimpse about Tamil Nadu Public Service Commission (TNPSC) exams particularly about groups 1, 2 and 4 exams of TNPSC. He concluded his speech by urging the students to inculcate the habit of reading Newspaper daily and wished them all the best for their future endeavours. After his speech, he presented a short video of the speech given by India's first visually challenged IFS officer, Mrs N.L.Beno Zephine at the Prime Minister's office, (PMO). The statement said by her-"I may not have a vision but I definitely had the vision to enter the civil services", greatly inspired the students.

Mrs.Kavita Vijayaraghavan, HOD, Department of Chemical Engineering requested the guest of honour Mr.Jagadesshwaran, IFS, Deputy Collector, Cuddalore to address the students. He said that he has got offer letters from Intelligence Bureau (IB) and Indian forest services (IFS) and now he is aiming to clear Indian Administrative Services (IAS). He presented a short view of his modest background and emphasized that he too was a backbencher and also had 5 arrears during his college days. But once he got admitted to a coaching institution he made himself disciplined and focused about the exam. With his hard work and inspiration from his brother (as a matter of fact his brother also has cleared the civil services examination) he was able to get through the civil services examination.

The IPR cell and Centre for Research and Development and Institution of Engineers, India- Agni College of Technology organized a technical lecture on Awareness on Indian Patent Rights and Publishing for PhD holders and PhD pursuing faculty members on 03.12.2018 at 9.30 a.m. in Smart room.

The Head of the EEE department Dr.M.Sridevi gave the welcome address and introduced the Resource person, Dr. Srinivasan Alavandar PhD (IIT).

Principal, Dr. R.S.Kumar briefed the importance of research and patent in the present scenario and motivated all the faculty members to dedicatedly focus on Patent and research.

Resource person, Dr. Srinivasan Alavandar PhD (IIT) explained about the Intellectual Property Rights (IPR) and emphasized the importance of patents in terms of its benefits and career growth. He insisted that the idea should be novel, non-obvious and application oriented to be applied for patent. He explained IPR which includes copyright, patents, and industrial design rights, the rights that protect trademarks, trade secrets etc. He demonstrated the importance of thorough patent search in various search engines like USPTO, WIPO, Google patent search, Indian Patent Search etc. before applying patent and explained how to search in various search engines with examples.

Finally, Dr. M.Sridevi HOD/EEE thanked the resource person for the valuable and informative speech.

The Agni College of Technology, conducted a seminar on "Incubation strategies to make your Start up successful" on Thursday, 13 February 2020. The chief speaker for the seminar was Mr. Vishnu varadhan, Chief Executive Officer, Atal incubation center-Pondicherry Engineering College.

The seminar was followed by the inauguration at the seminar Hall. The seminar began with the auspicious lamp lighting ritual. The chief guest explain how we can able to convert incubation center into a startup company and also about how an incubation center will work. He also shared his experiences from his years of expertise with citing examples. The students were very inspired by the demonstration and was in complete awe of the seminar. He was also very impressed with the student's efforts on their project presentation. The seminar commenced with the vote of thanks by Mr. Pragatheeswaran, III BME.
