Dr. Arul Kulandaivel, ASP, Department of Mechanical Engineering has published a research article on **Optimization of CO2 Laser Welding Process Parameters on Cupronickel Alloys using Multi- objective techniques** in the Journal of Ceramic Processing Research (SCI-Journal). In this research article, the TOPSIS optimization technique was used to analyse the welding parameters and their studies. The different level of welding input parameters were used to weld the cupronickel alloys with the assistance of CO2 which is suggested to be a better level of input parameter.
