FACULTY ACHIEVEMENT

The Design and Implementation of a Health Monitoring System Using the Internet of Things (IoT) are presented in this book. Nowadays, with the growth of innovations, specialists are constantly searching for cutting-edge electronic gadgets to make it simpler to identify body anomalies. Technologies that support the Internet of Things make it possible to create cutting-edge, non-invasive clinical assistance systems. A mechanism for tracking medical care is presented in this study. In particular, those with COVID-19, high blood pressure with a cheaper cost.

Mr. A. Sam Daniel Fenny, Assistant Professor, Dept of Mechanical and Automation Engineering, Agni College of Technology, Chennai, Tamilnadu, India. He has 11 years of teaching experience. He has completed his M.E (CAD) at Anna University of Technology Tirunelveli in the year 2011. His area of interest is Product Design, Industrial Robots, FEA,
