Report on action taken on feedback from employer

Suggestion	Action taken	Evidence
Assign real-world, industry-relevant projects where students can apply theoretical knowledge to solve practical problems. These projects should be assessed by both faculty and industry professionals to ensure alignment with industry standards.	Organized industrial visits to prominent companies relevant to the students' field of study.	All students were taken for industrial visit to understand and solve real world industry relevant problems
Introduce case studies based on real industrial scenarios. Evaluate students on their critical thinking, decision-making, and ability to propose viable solutions.	Students were asked to undergo internship	Students had regularly undergone internship

HOD/MHT

Department of Mechanical Engineering

Report of action taken on feedback from employer

Suggestion	Action Taken	Evidence
Assessments methods to be included for reflecting practical skills and knowledge required in the industries	Students were advised to undergo internship trainings and visit industries	All the students have attended internship trainings and were taken for industrial visits
Students to get prepared to enter the industries	Training programs were suggested to be conducted	Regular training programs are conducted
