Story behind Kaar Name and Logo

Kaar
 In Pursuit of Excellence

The word "Kaar" originates from Tamil Language, one of the oldest classical languages in the world. 'Kaar' means 'Rain' and is derived from the word 'Kaar Megham' (Rain Cloud).

The Kaar Tech logo consists of a pair of raindrops placed above the visual of a ripple wave.

The first approaching raindrop is orange in colour to depict optimism.

The second raindrop and ripple are maroon in colour to depict vitality, prosperity and growth.

KaarTech In Pursuit of Excellence

KAAR Technologies, Chennai has conducted **Replacement Talk** to the shortlisted final year students from Electronics & Communication Computer Science & Information Technology departments on 24th November 2022.

OUTREACH PROGRAMME

As the part of AICTE KARMA (Kaushal Augmentation and Restructuring Mission of AICTE), Dr. Chandravadana, Dean, ACT and Mr. Vivek conducted **Drone Demonstration Programme** in Santhome Higher Secondary School and Montfort Academy, Santhome, Chennai on 24th November 2022. It was well received by the students and they are ready to take up this technology as their career.

INTERNSHIP

Human Resources - G... 1:10 pm
to me ▾

Dear Sriram,

We would like to confirm that your application for an internship for the position of Graduate Engineer in the Avionics & Payload Integration Department has been accepted. Here are the terms of internship while working with the Company:

1. Duration of the internship will be from May 14, 2023 to May 13th, 2025(2 Years).
2. You will be designated as "**Trainee**" and will be entitled for a stipend of **\$900 p.m.** as per Company's Policy.
3. You will be entitled to other benefits from the company during this tenure.
4. From time to time, your performance will be evaluated and based on this, your incentives will be decided.
5. During internship, you are expected to abide by the Code of Conduct prescribed by the Company for all the employees.

You are requested to submit your acceptance of the terms mentioned above as confirmation of your internship. After receiving your acceptance, we shall send your appointment letter for the same.

Please feel free to contact us if you need any more details. Wishing you good luck for your future endeavors.

Sincerely,
Romila George,
Human Resources - Head,
Griffon Aerospace.

S. Sriram, IV year student, Department of Aerospace Engineering has been selected for an **Internship** as Graduate Engineer in the Avionics & Payload Integration Department in Griffon Aerospace, Alabama, USA.

TRAINING PROGRAMME

Ms. Suganthi Prabhakaran, Assistant Professor, Department of Information Technology has conducted Induction Program on the topic of **Mobile Application Development (MAD)** for the first year AI&DS and IT students on 24th November 2022.

INTERACTION SESSION

Dr. S. Geerthik, Head, Department of Information Technology interacted with the first year IT students about the various career opportunities and the skill sets required for the students. Books were gifted as a token of appreciation to the active participants on 24th November 2022.

Dear Dr.ISHWARYA M.V SRINIVASAN,

You are invited to review paper #5 in International Conference on Computing, Circuits, Energy and Materials by meta-reviewer.

Title:
Opinion Mining in Tamil YouTube Comments using Machine Learning Approach

Abstract:
Opinion mining is an approach for extracting useful information from a text including a range of feelings such as happiness, sadness, pride, fear, and many more. Many classifications such as two-way (positive or negative) or three-way (positive, negative and neutral) or multi-way (happy, sad, fear, surprise, and fury) classifications are widely used for text analysis. Natural language, in addition to different emotional classes, played a significant influence in opinion analysis. In this work, we proposed a text analysis method applied on Tamil language. Tamil is an old Indian language that needs a cutting-edge sentiment analysis model for better results. Further, Tamil language possesses additional challenges due to its unique features, grammar structure, and agglutinative nature. In this study, we employ the Naive Bayes technique with N-grams tokenizer, stemmer, and TF-IDF for Tamil text analysis. According to the experimental results of this study, proposed method performs well and improved the accuracy of the Tamil Comments analysis.

Dr. Ishwarya M. V, AP, Department of Computer Science and Engineering has reviewed an article **Opinion Mining in Tamil Youtube Comments using Machine Learning Approach** in the International Conference on Computing, Circuits, Energy and Materials on 24th November 2022.

Dear Dr.ISHWARYA M.V SRINIVASAN,

You are invited to review paper #38 in International Conference on Computing, Circuits, Energy and Materials by meta-reviewer.

Title:
A Novel Smart Health Monitoring System For Multiple users
Abstract:
In this paper we have proposed novel smart health monitoring system which detects early symptoms for corona virus or any relative health condition by deploying current technologies into action. It uses three different types of optical sensor technology for accurately measuring the required vitals of human body for detection and prevention of covid -19. All three sensors are communicating to controller via digital signal which then can be used for further processing. Our system is also using internet of things (IoT) to provide real time feedback to user. This type of monitoring system is currently not being used anywhere especially for multiple users. Through this an institution will be able to keep record of health vitals of their members over a period of time which can be used to generate a health report portraying past inconsistencies and any medical issues related to that person
Review due on:
12/1/2022

Dr. Ishwarya M. V, AP, Department of Computer Science and Engineering has reviewed an article **A Novel Health Monitoring System for Multiple Users** in the International Conference on Computing, Circuits, Energy and Materials on 23rd November 2022.
